

2021-2022

ELECTRONIC PRUNING SHEARS & TYING MACHINE

A person is shown from the side, wearing a dark blue jacket over a yellow and green plaid shirt, blue jeans, and tan boots. They are holding a black electronic pruner with a green top and a small screen. The pruner is connected to a red cable. The background is a vineyard with bare trees and dry grass under a clear blue sky.

# PRUNERS & TY

**The simple cut for olive groves,  
vineyards and fruit trees.**

The Active electronic pruner has been designed and built to facilitate the vineyards, olive groves and fruit trees pruning. Powerful and precise, it is characterized by a remarkable speed in making the cut; and it's able to cut branches up to 4 cm of diameter.

# NGMACHINES

During the pruning you can consult the functional parameters on the integrated LCD display, or directly on the external battery. This can be conveniently attached to the belt, in order to have a quick and complete tying machine status view: current battery, charge and partial and total cuts number performed.

## TIGERCUT 25

**Cutting diameter:** 25mm

**Progressive cut:** Yes

**Battery running time:** 2-3h/battery

**Motor:** Brushless

**Weight:** 940g with battery

### Included

- 2 Battery
- Battery charger
- Stone sharpens blades
- ACTIVE case
- Tool kit

## TIGERCUT 35

**Cutting diameter:** 35mm

**Progressive cut:** Yes

**Battery running time:** 4-6h/battery

**Motor:** Brushless

**Weight:** 1200g with battery

### Included

- 2 Battery
- Battery charger
- Stone sharpens blades
- ACTIVE case
- Tool kit

## TIGERCUT 40

The blade drive mechanical part is oversized for use, to ensure a long life in severe cutting conditions.

The most difficult shrub can be easily pruned thanks to the steel blades large opening up to 40mm. The battery, and its hook, allow you to work with autonomy and comfort. The ergonomic handle and the progressive cut will make easy, fast and comfortable cutting operations.

Smart belt hook

**Cutting diameter:** 40mm

**Progressive cut:** Yes

**Battery running time:** 6-8h/battery

**Motor:** Brushless

**Weight:** 860g without battery

Li-Ion Battery  
15 x 12,5 x 5,5 cm

### What's in the box?

- Battery
- Power cord
- Battery connection cable
- Stone sharpens blades
- ACTIVE case
- Battery backpack strap
- Tool kit

# WRAP-X

**The Tying revolution has arrived.**

We designed the new ACTIVE Wrap-X tying machine thanks to you too.

The new brushless engine allows the Wrap-X tying machine to obtain incredible performances without any kind of vibration, friction and powerloss.

Three types of wire are available so as to give you the opportunity to find the one that best suits your needs.

The revolutionary new display will make essential information available to you right away. The number of made ties, the current charge level and much more. The two batteries included into the package have been specially redesigned to optimize the energy distribution on the digital control board.

## WRAP-X

- 1 Backlit LCD display with useful information
- 2 Ultra-resistant technopolymer cover
- 3 Reel holder with easy replacement system and immediate vision of the wire state.
- 4 4 custom binding adjustments:
  - Small branches liv.3/4
  - Big branches liv.1/2
- 5 Handle redesigned to be ergonomic in soft-touch material

**Max tying capacity:** 25mm

**Tying mode:** 4

**Nominal power:** 30W

**Battery running time:**

6-8h

**Motor:** Brushless

**Weight:** 1,1kg

**Polypropylene** ensures a long-lasting binding

**BIO polymer**  
degradability  
9/10 months

**Paper** excellent for  
organic cultivation,  
degrades in 6/8

### What's in the box?

- 2 Battery
- Battery charger
- 2 spools of BIO polymer wire
- Tool kit

## THOSE WHO CHOOSE ACTIVE ARE DIFFERENT

*Those who choose ACTIVE are different, because they know how to recognize quality not only from the performance of our machines but also from the materials we use, from engines and transmissions, from shock absorbers and robustness. Every Active product has been carefully checked and tested in every processing phase, from design to production.*

*Those who choose ACTIVE are different because they show great passion. Like us!*
